

# RBC PLACE LONDON

## RBC Place London Access Update

Please be advised that the City of London infrastructure renewal project is on-going with a portion of York St. remaining closed up to Colborne St. This project is fluid however nearing completion, expecting full East-West access to York St. main entrance and underground parking by late July 2026.

Vehicle access to the **RBC Place London underground parking** lot will be from York St. East of the Wellington St intersection via a temporary laneway. Any vehicle exiting the parking garage will have to make right hand turns ONLY, no exceptions.

Vehicle access to the **Canada Wide surface parking lot** will be from Wellington St. travelling Northbound or from York St. travelling East only. Any vehicle exiting the surface lot will have to make left hand turns ONLY, no exceptions.

Access to the **RBC Place London loading dock** is from Wellington St. when travelling Northbound or Southbound due to a temporary opening in the median which has been reinstalled. When exiting the loading dock drivers will have to make right hand turns ONLY, no exceptions.

Please note that the Wellington St. overpass has a height limit of 4m. If your delivery vehicle is taller than 4m or you require any assistance accessing the RBC Place London loading dock, please call the **RBC Place London Facilities team at 519-859-6393**.

We appreciate your cooperation and patience during this temporary adjustment to accessing RBC Place London.
